Race your opponents to see who can put 4 fractions in order the fastest.

This is a game for 2 players.

Materials: Fraction cards, 2 game boards

Object of the game: The first person to put 4 fractions in order from smallest to largest wins.

Set up: Place the fraction cards in a pile face down.
Each player needs their own game board.

Rules: On your turn, draw a card. You can place the fraction on an empty space on the board OR switch it with a fraction that is already on the board. If you can't use the fraction card drawn you lose your turn. The first person to put 4 fractions in order from smallest to largest wins.

Fraction Cards

$\dfrac{1}{3}$	$\dfrac{2}{3}$	$\dfrac{1}{2}$	$\dfrac{2}{4}$
$\dfrac{3}{4}$	$\dfrac{1}{4}$	$\dfrac{1}{8}$	$\dfrac{2}{8}$
$\dfrac{3}{8}$	$\dfrac{4}{8}$	$\dfrac{5}{8}$	$\dfrac{5}{2}$
$\dfrac{7}{8}$	$\dfrac{3}{2}$	$\dfrac{5}{4}$	$\dfrac{1}{10}$
